At present I am serving as Vice President of the Board of Dentistry. I feel I bring a lot to the Board. I am the only female dentist and I am Native American. I feel these traits bring different ideas to the table. Also, being a somewhat younger dentist helps to bridge the gap between dentists, hygienists and denturists. During school, we were taught to work together with the different fields. This was not always the situation. I am seeking reappointment to the Board of Dentistry. I feel I am a good fit for the board.
